

Environmental Policy

Policy statement

We are committed to making our children aware of the importance of caring for the environment, we will carry out this commitment by following the procedures below where reasonably practical:

Procedures

- Waste will be reduced where possible by considering what we purchase and how we use it.
- Our curriculum will include activities to promote care of our environment.
- Craft activities will be planned to use recycled paper, cardboard and plastic.
- Non toxic glue, crayons and markers will be used.
- Printing and photocopying will be in black and white, unless colour is required and on double sided paper
- We will email parents/carers instead of printing where possible.
- We will promote "Walk to school week" periodically.
- Healthy lunches will be promoted using re-usable containers.
- Lights and equipment will be switched on only when needed.
- Heating will be used only when needed and the thermostat will be regularly checked to ensure it is not set too high.
