

Safeguarding and Welfare Requirement: Child Protection

The safeguarding policy and procedures must include an explanation of the action to be taken in the event of an allegation being made against a member of staff, and cover the use of mobile phones and cameras in the setting.

Safeguarding and Welfare Requirement: Child Protection

The safeguarding policy and procedures must include an explanation of the action to be taken in the event of an allegation being made against a member of staff, and cover the use of mobile phones and cameras in the setting.

1.6 Online safety (inc. mobile phones and cameras)

Policy statement

We take steps to ensure that there are effective procedures in place to protect children, young people and vulnerable adults from the unacceptable use of Information Communication Technology (ICT) equipment or exposure to inappropriate materials in the setting.

Procedures

- Our designated person (manager/deputy) responsible for co-ordinating action taken to protect children is:
JOANNE WHITELEY
-

Information Communication Technology (ICT) equipment

- Only ICT equipment belonging to the setting is used by staff and children.
- The designated person is responsible for ensuring all ICT equipment is safe and fit for purpose.
- All computers have virus protection installed.

Internet access

- Children do not normally have access to the internet and never have unsupervised access.
- If staff access the internet with children for the purposes of promoting their learning, written permission is gained from parents who are shown this policy.
- The designated person has overall responsibility for ensuring that children and young people are safeguarded and risk assessments in relation to online safety are completed.
- Children are taught the following stay safe principles in an age appropriate way prior to using the internet;
 - only go on line with a grown up
 - only press buttons on the internet to things I understand
 - tell a grown up if something makes me unhappy on the internet

Email

Parents and staff are not normally permitted to use setting equipment to access personal emails.

- Staff do not access personal or work email whilst supervising children.
- Staff send personal information by encrypted email and share information securely at all times.

Mobile phones – staff and visitors

- Personal mobile phones are not used by our staff on the premises during working hours. They will be stored in the bar area out of reach.
- In an emergency, personal mobile phones may be used in an area where there are no children present, with permission from the manager.
- Our staff and volunteers ensure that the setting telephone number is known to family and other people who may need to contact them in an emergency.
- We have our own Preschool mobile which is used on outings – 07909 554194
- Parents and visitors are requested not to use their mobile phones whilst on the premises. We make an exception if a visitor's company or organisation operates a lone working policy that requires contact with their office periodically throughout the day. Visitors will be advised of a quiet space where they can use their mobile phone, where no children are present.
- These rules also apply to the use of work-issued mobiles, and when visiting or supporting staff in other settings.

Cameras and videos

- Our staff and volunteers must not bring their personal cameras or video recording equipment into the setting.
- Photographs and recordings of children are only taken for valid reasons i.e. to record their learning and development, or for displays within the setting, with written permission received by parents (see the Registration form). Such use is monitored by the manager.
- Where parents request permission to photograph or record their own children at special events, general permission is gained from all parents on the registration form for their children to be included. Parents are advised that they do not have a right to photograph anyone else's child or to upload photos of anyone else's children.
- If photographs of children are used for publicity purposes, parental consent must be given and safeguarding risks minimised, for example, ensuring children cannot be identified by name or through being photographed in a sweatshirt with the name of their setting on it.

Social media

- Staff are advised to manage their personal security settings to ensure that their information is only available to people they choose to share information with.
- Staff should not accept service users and parents as friends due to it being a breach of expected professional conduct.

- In the event that staff name the organisation or workplace in any social media they do so in a way that is not detrimental to the organisation or its service users.
- Staff observe confidentiality and refrain from discussing any issues relating to work
- Staff should not share information they would not want parents or colleagues to view.
- Staff should report any concerns or breaches to the designated person in their setting.
- Staff avoid personal communication, including on social networking sites, with the parents with whom they act in a professional capacity.

Use and/or distribution of inappropriate images

- Staff are aware that it is an offence to distribute indecent images. In the event of a concern that a colleague or other person is behaving inappropriately, the Safeguarding Children and Child Protection policy, in relation to allegations against staff and/or responding to suspicions of abuse, is followed
- Staff are aware that grooming children and young people on line is an offence in its own right and concerns about a colleague's or others' behaviour are reported (as above).
